

# Lily Lolo Nail Polish launch

Submitted by: Lily Lolo Limited

Tuesday, 26 April 2016

---

British brand Lily Lolo has been busy creating a long-lasting, non-toxic formula using Eco-cert ingredients that looks gorgeous and keeps nails healthy by saying 'no' to the nasty chemicals often found in nail polish.

Available in six shades for summer and beyond, the long-lasting, non-toxic formula looks gorgeous and keeps nails healthy by saying 'no' to the nasty chemicals often found in nail polish.

As fans of natural beauty, we believe that you don't need to compromise on ingredients to create products that work and look great. So we've stripped out harmful toxins to create a unique formula that actually cares for your nails, encouraging them to stay strong and smooth while offering high-impact colour and shine. Now that's what we call real beauty.

Launching 17th May 2016. Available from [www.lilylolo.co.uk](http://www.lilylolo.co.uk) (<http://www.lilylolo.co.uk>)
