Netwrix professionals speak about why visibility and governance are critical for organizations' cybersecurity strategy

LONDON, UK, May 24, 2016 – Netwrix Corporation (<http://www.netwrix.com>), a provider of IT auditing software that delivers complete visibility into IT infrastructure changes and data access, is hosting a series of educational sessions at the Infosecurity Europe ([http://www.netwrix.com/go/info\\_security\\_europe\\_2016](http://www.netwrix.com/go/info_security_europe_2016)) in London, UK. Netwrix speakers Peter Smith and Stephane Di Cesare will focus on why visibility is vital to maintaining a stable and secure IT environment, and how it empowers organizations to ensure early detection of insider threats and mitigate the risk of data breaches.

TOPIC: Why Visibility is a Must in Your Security Strategy?

SECTION: Cyber Innovation Showcase

LOCATION: Olympia London, stand B80

TIME:

Tuesday, June 7, 2016, 4:30 p.m.

Wednesday, June 8, 2016, 4:30 p.m.

Thursday, June 9, 2016, 10:00 a.m.

SPEAKERS:

Peter Smith, Regional Manager

Stephane Di Cesare, Sales Engineer

Additionally, Netwrix will run a live demo of Netwrix Auditor 8.0 (<https://www.netwrix.com/auditor8.html>), where visitors will have an opportunity to know more about the features of the recent product upgrade. Netwrix Auditor enables control over changes, configurations and access in hybrid cloud IT environments to protect data at rest regardless of its location. The platform provides security analytics to detect anomalies in user behaviour and investigate threat patterns before a data breach occurs.

Predicting that more organizations would opt for cloud offerings, Simon Holloway, practice leader at IT analyst house Bloor Research, said that hybrid cloud trend continues to gain some serious traction: "Rather than putting all their eggs in one basket, hybrid has really helped cloud-based services seem like less of a major leap into the unknown and we expect this to really aid adoption in ..... years to come."
