RED STACK TECH NOMINATED FOR TWO UK ORACLE USER GROUP AWARDS 2016

Submitted by: Red Stack Tech

Wednesday, 3 August 2016

Red Stack Tech, an Oracle Platinum Partner specialising in the provision of Oracle Software, Hardware and 24/7 Managed Services, has been nominated for two awards by the UK Oracle User Group (UKOUG) (http://www.ukoug.org/2016-events/partner-of-the-year-awards/). These nominations recognise Red Stack Tech's full range of skills, exceptional service delivery, innovative approach and hard work over the past year within the following two categories; Database Partner of the Year and Systems Partner of the Year (http://www.redstk.com/red-stack-tech-named-ukoug-gold-partner-of-the-year-2015-for-oracle-engineered-systems-and-hardw

The annual UKOUG Partner of the Year Awards recognise the contribution that UKOUG Partners have made to the Oracle community over the past 12 months, as they compete for the esteemed awards. The announcement follows an initial round of nomination judging by a team of adjudicators. The winners of the awards are voted for by Oracle end-users, who are able to vote for their preferred partners.

Alex Louth, CEO at Red Stack Tech (http://www.redstk.com/) said: "Other the last 12 months the Red Stack Tech team have worked extremely hard to give our customers the best services and solutions possible as well as adopting new Oracle technologies. Being nominated for the UKOUG Partner of the Year Awards provides reassurance that our hard work is being recognised. Without the amazing staff at Red Stack Tech, none of this would be possible. "

Over the past year Red Stack Tech have had phenomenal growth in Engineered Systems, which has seen the company purchase the Oracle Exadata X5-2 (http://www.redstk.com/red-stack-tech-add-oracle-exadata-x5-2-to-portfolio-of-products-services/). The new Oracle Exadata joins previous investments including an existing Oracle Exadata Machine, Oracle Exalytics Unit, Oracle Database Appliance, and an Oracle ZFS Storage Appliance to provide Proof of Concept capabilities for their customers. Red Stack Tech attended the Oracle ODA partner product launch, which saw the introduction of the ODA X6-2S and X6-2M.

Red Stack Tech have also had large success implementing Oracle's flagship product Oracle Database 12c to numerous customers, some of which are FTSE 100 companies Red Stack Tech were also chosen to participate in two Oracle beta programmes, EM12c & EM13.

Voting is now open (http://pya.ukoug.org/index.php/579966?lang=en), and the winners will be announced on the 13th of October at Café de Paris in London. Please show your support by voting for Red Stack Tech for Database Systems Partner of the Year and Systems Partner of the Year 2016.
