With the Christmas party season almost upon us it's time to go all-out glamour with jewellery and accessories. Sparkly diamante necklaces (<http://www.eternalcollection.co.uk/costume-necklaces/diamante-costume-necklaces.html>) and pierced or clip-on diamante earrings (<http://www.eternalcollection.co.uk/clip-on-earrings/diamante-clip-on-earrings.html>) are perfect for eveningwear, whether you're dressing for a glamorous ball or attending a drinks party with friends.

With so much choice in diamante jewellery here at Eternal Collection, there really is something for everyone. You can choose big and bold designs or opt for something a little more delicate. There are iridescent, clear diamante necklaces which are easy to use to accessorise a colourful top or dress. There are also lots of brightly coloured crystals which catch the eye, perfect for adding a touch of colour to that little black dress.

Many diamante necklaces have matching pierced and clip-on earrings to complete the look, and there are diamante bracelets and bangles to choose from too.

"You really can't go wrong in choosing diamante jewellery at this time of year," says Eternal Collection founder Pauline Buttress. "Christmas parties are a great excuse for dressing up – whether you're wearing a ball gown or smart jeans and heels, diamante has to be the go-to accessory for the festive season. Everyone feels glamorous when they wear a beautiful diamante necklace and sparkly earrings."

Eternal Collection hosts a huge range of diamante and Swarovski crystal jewellery and the company is particularly well-known for its array of comfortable clip-on earrings. Customers can choose from a selection of clip-on findings and each can be easily adjusted for the perfect fit.

"If you don't have pierced ears or you no longer like to wear pierced earrings, then clip-on earrings are a great alternative," says Pauline. "They're particularly good for eveningwear when you might like to wear long drop earrings or a big chandelier-style design – you won't need to worry about the earring catching on clothing and tearing your earlobe."
