

Sean Donaldson Promoted to National Director of Sales

Submitted by: Mayflex

Friday, 11 November 2016

November 2016, Mayflex (<http://www.mayflex.com>) the distributor of Converged IP Solutions has promoted Sean Donaldson to the position of National Director of Sales for Infrastructure.

Sean Donaldson joined the business in June this year with the responsibility for the management and expansion of the companies' field sales team in the South of the country with specific focus on growing the companies, cabling infrastructure and IP Security sales and customer base.

Andrew Percival, Managing Director commented 'During the last few months Sean has really proved himself as an effective leader and with his great experience, market knowledge and customer centric enthusiasm and he has made significant progress with driving our Southern sales team. As a result we feel that we will achieve far greater consistency and drive by having one person running both the Southern and Northern infrastructure sales teams.'

Sean Donaldson commented 'I've thoroughly enjoyed my time so far at Mayflex (<http://www.mayflex.com>), there's a great team ethos and a desire to move the business forward. I'm also delighted to be selling the Excel (<http://www.excel-networking.com>) range rather than selling against it, as was the case for many years. The Excel (<http://www.excel-networking.com>) brand signifies great quality, extensive choice and a brand that I can see has massive potential to reach a far wider audience in both the UK and the rest of the World. I'm excited about driving this forward and getting out to see customers across the UK and not just in the South.

Sean concluded 'In 2017 Mayflex will achieve 100 years in business and I'm looking forward to a year of celebration and helping to meet our growth ambitions particularly around Excel and our security product set.'
