

European Subsea Cables Conference - Call for Papers

Submitted by: European Subsea Cables Association

Monday, 19 December 2016

The European Subsea Cables Association (ESCA), the European trade association for submarine power and telecommunications cables has announced that its next bi-annual Plenary will be held in Bilbao, Spain 1st/2nd March 2017.

ESCA now seeks abstracts on related topics, noting final papers must be technically correct and should be of interest to ESCA Members that will be attending the Plenary.

Over 60 delegates from the ESCA membership; submarine cable system owners, maintenance authorities, system manufacturers, cable ship operators, consultants and submarine cable route survey companies from many different countries, will discuss and exchange technical, legal and environmental information affecting the industry.

Further information on abstract submission guidelines and timescales and on the work of ESCA, including membership, can be found on the news section of its website (<http://www.escaeu.org/news>) or contact secretary@escaeu.org
