

TM Group and Arkivum Partner to Provide a Comprehensive Solution for Compliance Data Safeguarding

Submitted by: C8 Consulting

Thursday, 2 February 2017

London – TM Group A/S, Scandinavia's premier provider of advanced compliance solutions for financial services institutions, meaningful customer engagements, and first rate control rooms, and Arkivum, a long-term digital safeguarding and preservation solutions provider, have today announced a business partnership.

Together, the two companies address the growing need for an end-to-end, pre-integrated compliance solution to meet requirements for recordkeeping under MIFID II and MAR (Market Abuse Regulation). Arkivum's archiving solution and service will be embedded in TM Group's complete compliance suite of solutions and offered as managed service.

Brian Hansen, Group CEO of TM Group, said: "We are very happy to launch our partnership with Arkivum. Our customers are increasingly concerned with data sovereignty and integrity, guaranteed chain of custody governance and expect a comprehensive solution that addresses compliance requirements. Arkivum is our partner of choice for helping our customers overcome these challenges."

Guy Yaniv, CEO of Arkivum added: "TM Group have always been at the forefront of providing cutting edge technologies and homegrown innovations to the financial markets. The compliance solution, which Arkivum now plays a major role in, addresses some of the most critical challenges banks are facing today. Arkivum and TM Group are committed to meeting the highest standards in data lifecycle management."

About TM Group

TM Group is a leading provider of end-to-end, innovative solutions and services for ensuring compliance, enhancing customer engagements, and optimising operations – whether for the trade, in the contact centre, the back office, and in the control room. Since 2001, we have been the trusted advisor of Scandinavia's leading banks, delivering bullet proof compliance and more meaningful and profitable customer engagements. When it comes to achieving your organisation's most strategic business and operational goals, TM Group is proud to be your partner of choice. For more information go to www.tm-group.com.

About Arkivum

Arkivum provides best-of-breed data safeguarding and long-term archiving solutions to organisations in sectors spanning financial services, healthcare and life sciences, digital heritage, and higher education. These solutions assure the authenticity and availability of data regardless of scale or when it needs to be accessed, while mitigating risk and ensuring organisations' compliance with regulations or long-term data lifecycle management requirements.
