"At Paarti, we believe the best live performances and events are more than music. They're about connecting, sharing, finding joy in the moment — surrounded by the power and energy of all the people around us."

"We are launching a new kind of platform kicking off with a historic event that brings together some of the biggest names in music, in support of music heroes. With the world's most inclusive, engaged audience we are committed to give music lovers, artists, and industry players a more meaningful, more magical way to celebrate live music and the human connections it empowers. Because at Paarti, live isn't just an in-the-moment experience — it's the unforgettable connections that last long after the house lights come up."

"Let's make sure our favourite places, live acts, and artists continue to survive, thrive, and grow."

Noa Beach Club, Zrce, Croatia says:

"What always drives us is the passion and love for music. For Noa, "the beat" never stops, it keeps playing just like our hearts that live for this industry. That is why Noa Beach Club decided to join this initiative because it arose from a sincere desire to continue living, having fun, and socializing from all over the world. Luckily, technology today allows us to do that, and this project is going to take it to another level."

"It is important that clubs are opened so that generations are not deprived of socialization, so that artists continue their work for which they were born, so that friendships, love, and memories are created for a lifetime. Because it is what is all about."

"The unity and cooperation we feel in this project will be remembered for a long time. We are all working hard, preparing for the season, and for our guests and fans we will always go the extra mile! Noa wants you to stay tuned and positive! We look forward to this summer and the fulfilment of many dreams in the years to come."
