

Value-led hayfever products to try

Submitted by: MAVEN COMMUNICATIONS LIMITED

Monday, 28 March 2022

Looking for journalists suffering from hayfever who wants to try and review a major high street retailer's value led hayfever products.

The natural hayfever range effectively treats symptoms caused by pollen and other airborne allergens, to make sure you can still go out and enjoy yourself as allergy season is creeping up on us.

Products to review include biodegradable wipes, eye drops and nasal spray.

Please contact ellen@itsmaven.com for more information, imagery and samples to review.
