Monday, 13 June 2022

For the fifth year in a row, ESCP Business School's Master in Finance has been ranked 2nd in the world by the Financial Times in its annual ranking.

Taught at both ESCP's Paris and London campuses, the programme is 1st in the UK and 2nd in France, reaffirming the school's competitive reputation in both countries.

The programme also ranks 1st worldwide for its international experience, careers service, and international work mobility.

In addition, an impressive 100% of programme alumni are known to be employed within three months after graduation and 97% confirm 'aims achieved'. These strong results lead alumni to give the course an outstanding overall satisfaction rate of 9.93 (out of 10), the highest among the schools ranked this year.

This ranking recognises the programme's international position as well as the technical and professional dimensions that help establish its cutting-edge reputation.

"We continue to train professionals with an international outlook and strong technical competency. Combined with academic expertise, this has been achieved by building strong relationships with top financial institutions, giving our students the skills that they need in order to succeed in Investment Banking, both in the fields of Financial Markets and Corporate Finance" - Professor Philippe Thomas, Academic Director of the Master in Finance.

ABOUT ESCP BUSINESS SCHOOL

ESCP Business School was founded in 1819. The School has chosen to teach responsible leadership, open to the world and based on European multiculturalism. Six campuses in Berlin, London, Madrid, Paris, Turin and Warsaw are the stepping stones that allow students to experience this European approach to management.

Several generations of entrepreneurs and managers were thus trained in the firm belief that the business world may feed society in a positive way. This conviction and ESCP's values - excellence, singularity, creativity and plurality - daily guide our mission and build its pedagogical vision.

Every year, ESCP welcomes 8000 students and 5000 managers from 122 different nationalities. Its strength lies in its many business training programmes, both general and specialised (Bachelor, Master, MBA, Executive MBA, PhD and Executive Education), all of which include a multi-campus experience.

It all starts here.
