Laura was left blown away as Psychic to the stars Chris Riley told her personal things that 'no one would know' during Psychic Reading.

She was left gobsmacked as she went on to explain that Chris knew major things about her, and her family, knowing specific details such as names of family members, she mentions her Dad, Gran, and ex partner.

"I was like, eh", Laura said as she explained how she has had other readings in the past that have perhaps been a bit of 'guess work', but the experience with Chris Riley was somewhat different.
