The affordable beauty brand, Organic Shop, has had a makeover! With bright, new packaging and fresh, fruity flavours, this range of natural hair, body and skin care looks and smells simply divine.

All products are made with love and care, using fruit, vegetable and tropical flower extracts. You'll find no synthetic fragrances or dyes, no parabens, just lots of fresh, natural ingredients together with certified organic oils and extracts. And, as the name suggests, everything is grown without the use of chemical fertilisers.

We also use recyclable or biodegradable packaging, so you can feel good that you're looking after our planet!

We've JUST LAUNCHED our Christmas body scrubs - made with organic sugar that gently exfoliates the skin without drying it out. At just £3.49 each, with FREE prime next day delivery, these are perfect for Secret Santa or last-minute stocking fillers.

Love the smell of freshly baked biscuits? The combination of organic ginger and organic cinnamon extracts in our Christmas Cookies Scrub perfectly tone your skin, leaving it feeling supple and soft at the same time.

Or indulge your senses with Gingerbread Body Scrub, containing organic ginger extract and organic orange oil, to leave your skin feeling firm, soft and radiant.

Our colourful Candy Cane Body Scrub with organic vanilla and strawberry extracts hydrates skin during exfoliation and leaves a fruity, sweet scent.

Certified Cosmos Natural and suitable for vegans.
