Augmented intelligence provider Squirro recognized for the completeness of its vision and ability to execute

Zürich, December 20th, 2022. Squirro ([https://info.squirro.com/ecb\\_pr](https://info.squirro.com/ecb_pr)), the Augmented Intelligence solutions provider, has announced that it has been recognized as a Visionary in the 2022 Gartner® Magic Quadrant™ for Insight Engines, for the second consecutive year.

The Squirro Insight Engine (<https://squirro.com/insight-engine/>) was recognized for the completeness of its vision and ability to execute. Squirro's innovative and modular Insight Engine provides semantic enterprise search, insights generation as well as AI-driven contextual recommendations supporting data-driven decision-making, personalization, and automation.

It offers a user-friendly, simple and clear UI and is available as a vendor-managed service hosted on a choice of third-party cloud services and can also be deployed in a private cloud or on-premises.

"We believe to be recognized as a Visionary in the Gartner Magic Quadrant for Insight Engines for the second consecutive year reinforces our ongoing focus on innovation and ability to deliver deep insight to our clients," said Dorian Selz, CEO, Squirro. "Working with organizations such as The Bank of England, European Central Bank, and Henkel shows we understand the requirements of major enterprises and have the solutions and expertise to execute for them. Being named as a Gartner® Magic Quadrant™ Visionary is hugely important to us and a sign of the progress we continue to make."

Squirro also offers a comprehensive range of Augmented Intelligence Solutions across vertical (including banking and manufacturing) and functional domains, such as sales, risk, knowledge management, and service.

Squirro's placement as a Visionary in the Gartner® Magic Quadrant™ bodes well for further Insight Engine innovation, according to Dorian Selz, Squirro:

"We place great emphasis and focus on our Insight Engine, and for it to be recognized by Gartner® again is a proud moment for Squirro. We feel this positions us well for further success in 2023 and beyond."
