Monday, 20 March 2023

---

Hosted and organised by IRM UK, the Master Data Management and Data Governance Conference Europe, 9 – 12 May 2023 will bring together delegates from the UK and across Europe for four days to discuss the most important and challenging issues facing the data industry today.

Delegates who attend will benefit from:

- Four days of unlimited learning and networking
- Gain insight from industry-leading figureheads
- Choose from four conference tracks and over forty-five sessions
- Networking with 200 of the most influential master data management and data governance decision-makers

World-renowned speakers confirmed to speak at this year's event are from organisations including; abrdn, Bank of England, Flanders' Department for the Environment and Spatial Planning, Dutch Development Bank, Farfetch, Göteborg Energi, Jetstar Airways, Lexmark, MUFG Bank Ltd, NEST, OCI Chemical, Poslovna Intelligencija, PwC, The Openwork Partnership, University Hospitals Birmingham NHS Foundation Trust, Volvo Penta.

Numbers are expected to reach 200 and typical attendee's include Data Governance Managers, Data Architects, Data Managers, Data Stewards, Master Data Managers, Business Intelligent Managers, Head of Data & Analytics, Data Governance Directors, Master Data Management Directors, VP of Data Analytics, VP of Enterprise Data Management and much more.
