

Steering the World Toward a Better Future

Submitted by: TBD Media Group Ltd.

Friday, 14 April 2023

TBD Media Group, a leading media and communications company, has launched an ambitious initiative, the VISION 2045 campaign, to steer our society towards a more sustainable and equitable world by 2045. The campaign seeks to inspire and mobilise individuals, businesses, and governments around the world to take bold actions toward creating a more sustainable future.

The VISION 2045 campaign recognizes that sustainability is a fundamental principle guiding our actions and decisions toward a prosperous future for all. Over the years, sustainability has reshaped our world, leading to innovations and advancements that were once unimaginable. Sustainability has become the cornerstone of progress and the key to a better world.

TBD Media Group recognizes the power of storytelling and its role in shaping attitudes and behaviours toward sustainability. The VISION 2045 campaign highlights stories of sustainability champions leading the way in sustainable innovation, from renewable energy to compostable fabric, from circular economy to regenerative agriculture.

This campaign will be a collection of interviews and documentaries that aim to support the UN and its objectives by inspiring businesses and people to take collective action to ensure a better future for all. The UN Global Compact is celebrating its 20th anniversary by launching into the 'Decade of Action' to deliver on the SDGs by asking businesses to reimagine, reset and redefine ambition, leadership and action to realise the world we want.

Sustainability is a shared responsibility, and TBD Media Group believes that all humankind must work together to create a more sustainable world. The VISION 2045 campaign aims to create a global community of sustainability pioneers who share their vision and commitment. The company is confident that with the collective efforts of everyone, we can overcome challenges and create prosperity.

This campaign invites pacesetters to join this journey toward a more sustainable future. Together, we can create a world that is not only sustainable but also prosperous, equitable, and just. Watch the featured films:
