

Available for review: HiGRID Sleep launches innovative mattresses

Submitted by: Avant PR

Thursday, 24 August 2023

Get set for your best night's sleep with HiGRID Sleep, a new mattress brand on a mission to upgrade sleep quality for everyone. We're looking for journalists to test out mattresses for reviews, and mattress guide features.

Offering products that are tailored to meet customers' needs and provide solutions to a range of sleep-related problems, HiGRID's mattresses have been developed following years of research, with each layer crafted with sleep science at its foundation, to ensure a healthy, happy and sound night's sleep.

HiGRID's mattresses all boast unique patented SmartGRID technology, comprising a unique grid structure, designed with hyper-elastic polymer material that allows the grid's walls to bend down on body curvatures to ensure there is no pressure placed on any part of the body, whilst cradling and cushioning. Engineered to be both soft and supportive, SmartGRID mattresses give two times the regular amount of back support, whilst being soft enough to adapt to the shape of your body.

Find a mattress to suit you whatever your needs or sleeping style. Designed with back pain in mind, the Ortho Essential mattress supports the spine and neck whilst cushioning the shoulders, hips and pelvis, improving posture during sleep and reducing pain and discomfort during and after sleep.

The Luxe Original mattress is designed to give you the most restful sleep, by combining luxury comfort and cosiness. It features a LuxioTec Comfort Layer to allow a comfortable, floating sensation, whilst also providing pressure relief due to the way its layers adapt to different body forms.

For the best of both worlds, the Premium Hybrid boasts two times more back support thanks for the SmartGRID tech, while 500+ individually wrapped pocket springs adapt to bodily motion, and the high density top foam adds dreamy plushness.

HiGRID Sleep offers a 200 nights trial and 10 year guarantee on all its mattresses. Shop the range at HiGRIDSleep.co.uk.

If you're interested in trialling HiGRID's mattresses for reviews or round-ups, please contact ellen@avant-pr.com.
