ubitricity celebrates its 10,000th EV charging point as it enters the Dutch EV charging market

The UK's largest public EV charge point operator continues to expand across the UK, Germany, France, and the Netherlands.

London, UK – Tuesday 26th September 2023: ubitricity, provider and operator of public charging solutions and a member of the Shell Group, today announced it is now operating more than 10,000 EV charge points across Europe. This important milestone was reached during the takeover of nearly 1,500 AC fast charge points as part of ubitricity's Dutch market entry.

The UK remains the company's largest market – operating more than 7,000 charge points. Since 2020, ubitricity has been the UK's largest charge point operator. Most of these charge points are retrofitted into existing lampposts – a pioneering charging solution that ubitricity brought to the market in 2016. However, ubitricity is also supporting local authorities across the UK in the roll-out of AC fast and DC rapid charging points for public use.

The takeover of the Dutch charge points adds to ubitricity's growing Continental European network across Germany, France and the Netherlands. The Dutch project involves the takeover of nearly 1,500 existing public AC fast charge points in the provinces of North-Holland, Flevoland and Utrecht.

Within the Shell Group, ubitricity is the full-service specialist for the expansion of public on-street charging solutions, and the ubitricity team is working closely with Shell and other partners to maintain and further expand public charging infrastructure across all of its markets. Shell and its subsidiaries maintain a global network of over 40,000 public EV charge points.

To simplify the use of ubitricity charge points, all 10,000 locations will be rebranded physically and digitally to Shell Recharge. This integration to Shell's well-established customer brand "Shell Recharge", and the Shell Recharge App, will make it easier for EV drivers to find and access EV charging. The Shell Recharge app is already used by over 500,000 drivers. Customers can also pay via Pay-As-You-Go and other EV roaming options.

Daniel Kunkel, CEO of ubitricity said: "We are excited to have rolled out 10,000 ubitricity charge points in close partnership with local authorities all over Europe. This is an incentive for our team to further accelerate the expansion of public charging networks. We are committed to providing more drivers the right charger, at the right place, at the right time."

In the UK ubitricity is currently rolling out charging infrastructure across Local Authorities including; Liverpool, West Berkshire, Redbridge, West Suffolk, and Richmond and Wandsworth.

END

Cautionary Note:

The companies in which Shell plc directly and indirectly owns investments are separate legal entities. In this announcement "Shell", "Shell Group" and "Group" are sometimes used for convenience where references are made to Shell plc and its subsidiaries in general. Likewise, the words "we", "us" and "our" are also used to refer to Shell plc and its subsidiaries in general or to those who work for them. These terms are also used where no useful purpose is served by identifying the particular entity or entities. "Subsidiaries", "Shell subsidiaries" and "Shell companies" as used in this announcement refer to entities over which Shell plc either directly or indirectly has control. Entities and unincorporated arrangements over which Shell has joint control are generally referred to as "joint ventures" and "joint operations", respectively. Entities over which Shell has significant influence but neither control nor joint control are referred to as "associates". The term "Shell interest" is used for convenience to indicate the direct and/or indirect ownership interest held by Shell in an entity or unincorporated joint arrangement, after exclusion of all third-party interest. This announcement contains forward-looking statements (within the meaning of the U.S. Private Securities Litigation Reform Act of 1995) concerning the financial condition, results of operations and businesses of Shell. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. Forward-looking statements are statements of future expectations that are based on management's current expectations and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in these statements. Forward-looking statements include, among other things, statements concerning the potential exposure of Shell to market risks and statements expressing management's expectations, beliefs, estimates, forecasts, projections and assumptions. These forward-looking statements are identified by their use of terms and phrases such as "aim", "ambition", "anticipate", "believe", "could", "estimate", "expect", "goals", "intend", "may", "milestones",

“objectives”, “outlook”, “plan”, “probably”, “project”, “risks”, “schedule”, “seek”, “should”, “target”, “will” and similar terms and phrases. There are a number of factors that could affect the future operations of Shell and could cause those results to differ materially from those expressed in the forward-looking statements included in this announcement, including (without limitation): (a) price fluctuations in crude oil and natural gas; (b) changes in demand for Shell’s products; (c) currency fluctuations; (d) drilling and production results; (e) reserves estimates; (f) loss of market share and industry competition; (g) environmental and physical risks; (h) risks associated with the identification of suitable potential acquisition properties and targets, and successful negotiation and completion of such transactions; (i) the risk of doing business in developing countries and countries subject to international sanctions; (j) legislative, judicial, fiscal and regulatory developments including regulatory measures addressing climate change; (k) economic and financial market conditions in various countries and regions; (l) political risks, including the risks of expropriation and renegotiation of the terms of contracts with governmental entities, delays or advancements in the approval of projects and delays in the reimbursement for shared costs; (m) risks associated with the impact of pandemics, such as the COVID-19 (coronavirus) outbreak; and (n) changes in trading conditions. No assurance is provided that future dividend payments will match or exceed previous dividend payments. All forward-looking statements contained in this announcement are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Readers should not place undue reliance on forward-looking statements. Additional risk factors that may affect future results are contained in Shell plc’s Form 20-F for the year ended December 31, 2020 (available at www.shell.com/investor and www.sec.gov). These risk factors also expressly qualify all forward-looking statements contained in this announcement and should be considered by the reader. Each forward-looking statement speaks only as of the date of this announcement, 26th September 2023. Neither Shell plc nor any of its subsidiaries undertake any obligation to publicly update or revise any forward-looking statement as a result of new information, future events or other information. In light of these risks, results could differ materially from those stated, implied or inferred from the forward-looking statements contained in this announcement. The content of websites referred to in this announcement does not form part of this announcement. We may have used certain terms, such as resources, in this announcement that the United States Securities and Exchange Commission (SEC) strictly prohibits us from including in our filings with the SEC. Investors are urged to consider closely the disclosure in our Form 20-F, File No 1-32575, available on the SEC website www.sec.gov
