In the spring of 2006, Cynthia Grafton-Holt embarked on a love affair with the enchanting city of Paris, setting the stage for her latest bridal collection, "DREAMS of Paris." As a highly sought-after British wedding dress designer celebrated for her craftsmanship, Cynthia Grafton-Holt takes us on a journey of love and inspiration that has led to this captivating collection.

A Love Story Unfolds:

The tale begins with a late Valentine trip to Paris, a city that epitomises love and romance. Cynthia's journey was anything but ordinary; a lovers' quarrel almost prevented her from making the trip. Yet, love prevailed, and the couple found themselves on the Eurostar, sipping Champagne for breakfast as they embarked on a journey to the city of love.

Upon arrival, Paris welcomed them with warm, expectant air and cherry blossom-lined avenues. Their boutique hotel behind Avenue Montaigne offered a glimpse into the world of high-end fashion, where immaculately polished windows and impeccably dressed shop assistants created an air of exclusivity.

A Proposal in the City of Love:

Atop the Eiffel Tower, amidst breathtaking views of the city and the Sacré-Cœur on the horizon, Cynthia's heart raced as her love whispered, 'Will you marry me?' From that moment, Paris became their canvas, a city of love, exploration, and vibrant nights

An Unforgettable Affair:

The weekend in Paris left an indelible mark on Cynthia's heart. The city's rich history, timeless beauty, and romantic allure ignited a passion within her. She dreamt of designing bridal gowns that would capture the essence of this magical city.

The dream took root when Cynthia met a photographer from South Africa who shared her vision. Months of planning and collaboration led to their first shoot in May 2023, a dazzling night-time session at the Louvre Museum in Paris. The vision had become a reality.
