

Macalla Software and Computer Sciences Corporation (CSC) Join Forces to Drive Mobile e-Commerce Growth in Germany

Submitted by: Simpson Financial and Technology PR

Monday, 18 March 2002

CeBIT, Hannover - March 18, 2002: Macalla Software, Europe's leading provider of proven mobile e-Commerce platforms and applications and CSC, a leading consulting and information technology services company in Germany, have formed an alliance to deliver Macalla's widely deployed mobile e-Commerce solutions to mobile operators and financial institutions throughout Germany. The combination of CSC's systems integration reputation and existing customer relationships coupled with Macalla's proven success at delivering revenue generating solutions means that the two organisations will make a strong impact on the market by providing a tightly knit mobile e-Commerce product and service solution set. This alliance was announced today at CeBIT 2002 in Hannover, Germany.

Patrick Kinsella, Director of International Channels, Macalla Software explains, "We have developed similar relationships with other systems integrators throughout Europe and it is very beneficial for all parties involved including the customer, the systems integrator and Macalla. We are delighted to join forces with CSC as it is the largest systems integrator in Germany and by combining our expertise with their excellent reputation and customer relationships, we will achieve the kind of successes in Germany that we have experienced in other markets."

Dr. Gerhard Kaucky, Business Development Manager, CSC comments, "Driving this partnership is a shared vision how to provide customers with a total mobile e-Commerce solution set enabling them maximise their revenue opportunities using today's technologies and networks. This solution set brings together CSC's superior integration skills and Macalla's proven technologies. It is this solution set that we are bringing to our existing customers in Germany."

About Macalla Software

Macalla Software is a leading European provider of proven mobile e-Commerce platforms and solutions to mobile operators and enterprises. Macalla's mobile e Commerce platform underpins Europe's largest mobile e-Commerce deployment supporting 500,000 users with Postbank Nederland (ING Group) and Telfort (MMO2). It has also provided an impressive range of solutions for world-leading organisations such as, Charles Schwab Europe, Eircell Vodafone, AIB Bank plc., Dresdner Kleinwort Wasserstein, Staal Bankiers (Achmea Group), IG Index, and Ulster Bank (Royal Bank of Scotland).

Macalla's technologies and solutions are designed to increase profitability, reduce churn, create additional revenue sources and facilitate the acquisition and retention of new quality customers. Working on a global basis with an increasing range of technology partners and systems

integrators, Macalla is able to leverage its presence in Dublin, London, Madrid, Rotterdam, New York and Frankfurt, and provide customers with a full range of the best experience, platforms, solutions, integration, implementation and ongoing support for their mobile e-Commerce strategies. Technology partners include, Sun Microsystems, IBM, BEA, HP, Nokia, IONA, Openwave, Reuters, and Baltimore Technologies. Systems integrator partners include, CMG, Cap Gemini Ernst & Young, Getronics Iberia, Quinary and eServ.

Version 3.5 of The Macalla Mobile e-Commerce Platform(tm), is based upon the three core technologies of multi-device-delivery, mobile payments and alerts and provides the following solutions out-of-the-box; top-up, shopping, banking, share dealing, peer-2-peer payments, premium content, gaming, ticketing, and a complete integrated development environment.

About CSC

Computer Sciences Corporation, one of the world's leading consulting and IT services firms, helps clients in industry and government achieve strategic and operational results through the use of technology. The company's success is based on its culture of working collaboratively with clients to develop innovative technology strategies and solutions that address specific business challenges.

Having guided clients through every major wave of change in information technology since 1959, CSC combines the newest technologies with its capabilities in consulting, systems design and integration, IT and business process outsourcing, applications software, and Web and application hosting to meet the individual needs of global corporations and organizations. With some 68,000 employees in locations worldwide, CSC had revenues of \$11.3 billion for the twelve months ended December 28, 2001. It is headquartered in El Segundo, California. For more information, visit the company's Web site at <http://www.csc.com>.
