

ISSI Signs EBV Elektronik as a Franchise Distributor in Europe for its Complete Line of Memory Products

Submitted by: Pleon
Tuesday, 2 April 2002

Integrated Silicon Solution, Inc. (Nasdaq: ISSI), a leader in advanced memory solutions, today announced that it has signed EBV Elektronik, one of Europe's largest independent semiconductor distributors, as its franchised partner in Europe. EBV Elektronik and its group will distribute all of ISSI's memory products, including its high performance asynchronous and synchronous SRAMs, low-to-medium density DRAMs, EEPROMs, Flash plus SRAM Multi-Chip Packages, and other related memory products.

"We are pleased to be represented by one of Europe's largest semiconductor distributors," said Gary Fischer, ISSI's President and COO. "EBV adds value to our broad line of memory products through their proven ability to provide full sales service and outstanding technical support, providing a complete customer solution."

"We are delighted to have ISSI on board. ISSI's high performance SRAM and DRAM technology and their long-term product availability will not only strengthen the EBV linecard, but will also complete our existing memory product portfolio," said Patrick Zammit, President of EBV Elektronik. "The advanced memory technology of ISSI will create additional opportunities within our existing customer base, as well as give us access to many new applications we were not able to support with our current linecard."

About ISSI

ISSI is a technology leader in high performance memory semiconductors. The company designs, develops and markets memory products used in networking, Internet infrastructure, telecommunications, wireless products, handheld devices, computer peripherals, and automotive electronics. ISSI's products incorporate state-of-the-art circuit design and advanced process technology. The company's high speed and low power SRAMs, low to medium density DRAMs, Multi-chip Package, and family of EEPROMs enable designers to meet the demanding connectivity, portability, and bandwidth requirements of today's high tech products. ISSI is headquartered in Silicon Valley with worldwide offices in China, Europe, Hong Kong, Taiwan and Korea.

About EBV Elektronik

EBV ELEKTRONIK, an Avnet Company, was founded in 1969 and is a leading European semiconductor specialist.

EBV maintained its successful strategy of personal commitment to customers, excellent services, highly motivated & technically competent people, and finally, a strong focus on a limited number of long-term semiconductor partners. EBV employs 757 people, including more than 80 Field Application Engineers in 50 locations and 24 countries across Europe, Israel and South Africa. The technical services offered by EBV are fulfilled by Avnet Logistics, which provides warehouse operations, value-added services and product modification services to EBV's customers. The Avnet Logistics Programming-Service-Centre in Poing, Germany is the largest in Europe and is fully CECC, QS9000 and ISO 9002 certified. Information about EBV ELEKTRONIK is available on the World Wide Web under <http://www.ebv.com> .
