

AZURE WORLD EXPERT TO SPEAK AT TELEMAGEMENTWORLD 2003 - How to money without really trying!

Submitted by: Pirate Communications

Tuesday, 6 May 2003

Martin Browne, executive director of Azure, the telecoms revenue assurance specialist, will be speaking at the TeleManagement World 2003 conference and exhibition, which takes place at the Acropolis Convention Centre, Nice, France between 19 and 22 May 2003.

Martin will be presenting a session entitled "Interconnect: How to lose money without really trying" at 5pm on 20 May 2003. The session forms part of the conference theme "Enter the lean operator: Transforming Telecom Operations" which will focus on reducing operating costs, increasing business agility and improving the customer experience.

Azure will also be exhibiting as part of the OSS Expo, where it will be demonstrating its latest products and services aimed at reducing losses and safeguarding profits from malicious and unintentional revenue leakage. Products include: Interconnect Accounting, Fraud Prevention, Event Integrity, Mediation Management and Route Optimisation.

Azure is backed by the recently launched technology venturing partnership, NVP Brightstar, created in February this year. NVP Brightstar has been created by BT Brightstar, formerly part of BT's research and technology business, BTextact Technologies; Collier Capital, the UK-based global private equity investment manager; and New Venture Partners, the US-based venture capital firm.

About Azure (www.azure-solutions.com)

Azure is one of the world's leading revenue assurance companies with offices in London, Adastral Park (near Ipswich, UK), Frankfurt, Paris, Stockholm, Singapore and Kuala Lumpur. Its portfolio includes Interconnect Billing, Fraud Management, Mediation Software, Event Integrity and Route Optimisation. Azure provides individual products or complete revenue assurance solutions using a common platform and any combination of products that a customer might need. Customers can choose a system that they own and operate themselves or a bureau that Azure manages on their behalf. Amongst Azure's customers are PTTs, mobile operators, national operators, carrier's carrier and cable TV companies; Azure has significant carrier experience and understands the problems faced by all these operators. The company's heritage is based on the fundamental technology and skills developed whilst in BT in the early 1990's with many of the world-class technical experts remaining at Azure today.
