In order to support its international expansion, Deskom has just opened a Sales office in the UK. The London based office will enable Deskom to accelerate the active promotion of its electronic invoicing service to major organisations established in Great Britain.

This UK presence will provide better client service for companies adhering to Deskom's service to achieve streamlining of their invoice processing resulting in significant cost reductions. An operational centre is being created to serve the important invoice volume from Deskom's first British clients.

Deskom is headquartered in Paris and is an affiliate of GMAC Commercial Holding Corporation.
