BiblioTech launches the office solution that is open 24-7-365

BiblioTech, the creators of SCHOOLMASTER, www.schoolmaster.net, and POSTMASTER, www.postmaster.co.uk, are pleased to announce the addition of OFFICEMASTER, www.officemaster.net, to its award-winning portfolio of online services.

Are you are tired of information overload and have you thought about banning internal email? Are you tired of worrying about IT when it's not your core business? Would you like to lower your IT costs? Do you want to build strong online relationships with your customers and partners? If so, then OFFICEMASTER is the solution.

OFFICEMASTER is a leading, web-based, mobile office solution that combines a full suite of social software applications. With a focus on groupware, communication and collaboration, OFFICEMASTER allows each company to work effectively, both internally and externally with its customers and partners in a private online business environment.

OFFICEMASTER provides such things as secure email, shared calendars, discussion forums, conferencing, contacts, projects and document storage for employees, customers and partners.

However small or large a company, OFFICEMASTER will increase efficiency and effectiveness when working with colleagues, customers and partners. With BiblioTech's mission, to 'Enable the Meeting of Minds', OFFICEMASTER has been designed to serve as a web based intranet, extranet, groupware and VPN solution, all in one place, with one login.

Nabil Shabka, CEO of BiblioTech, comments "we are very proud to be launching OFFICEMASTER and feel that this is an exciting opportunity for all businesses to work effectively online with minimal costs. The company's objective has always been to deliver elegant solutions that address real needs and deliver real

value to the customer.”

OFFICEMASTER is owned and operated by BiblioTech.

BiblioTech Established in London, England, in 1995. BiblioTech’s services are built on its award-winning Community Service Provider (CSP) platform, which combines an extensive suite of communication, groupware and publishing applications in a single, integrated online environment.
