

# The IEE & Riello UPS Launch Nationwide Business Continuity Energy Forms

Submitted by: Marketing Projects (Chester and London)

Wednesday, 4 February 2004

---

A new series of Energy Forums aimed at consultants, contractors and large corporate users has been announced for 2004 by The IEE and Riello UPS - Europe's leading manufacturer of Uninterruptible Power Systems.

The Energy Forums will cover the area of business continuity with presentations to prompt discussion on the topics of power system design, electrical cabling, battery selection and maintenance, generator installation, remote field alarms and secure room installation including bomb, fire and water proof facilities.

Speakers from other leading specialist companies including Yuasa, Progress Plant (FG Wilson distributor), Pennine Telecom (Orange Fixed Cellular Terminal specialist) and Lamperts (part of the Ritall Group).

This is the second Energy Forum to tour the UK, back by popular demand, and is particularly relevant to consultants, specifiers, contractors, IT and facilities managers, who want to improve their business continuity knowledge. The presentations are equally applicable to existing and new build installations.

The Energy Forms are chaired Darren Barsby, Head of Professional Networks for the IEE. Darren closes the seminars with a brief overview on the topics raised, and a presentation on the products, services and membership opportunities provided by the IEE, designed to meet the needs of today's technology industry.

Leo Craig UK Sales Manager for Riello and IEE member;  
"Business continuity and risk management continue to remain a key checklist item in many new computer and telecoms projects, The more knowledge about the subject we can impart through these seminars the more secure the UK's ICT infrastructure becomes. These Energy Forums help people to avoid the common pitfalls."

The seminars are run at a variety of locations including leading football grounds such as Old Trafford (Manchester United), the Millennium Stadium in Cardiff and Glasgow University. Attendance at the seminars provides an opportunity to win tickets to various premiership and five nations rugby matches. Each participant also receives an attendance certificate and information pack. levant football or rugby ground

The schedule for 2004 so far is as follows:

- 16 March Newcastle - St James' Park
- 17 March Edinburgh - Murrayfield
- 18 March Glasgow - Glasgow University
- 21 April Reading - Madeski Stadium
- 28 April Manchester - Old Trafford
- 11 May Birmingham - Villa Park
- 12 May Cardiff - Millennium Stadium
- June London - Stamford Bridge
- June Dublin
- June Belfast

Further dates over the summer period will cover Dublin, Belfast and other mainland UK locations. Each Energy Forum follows the timetable pioneered by Riello UPS in Italy, France, Germany and Spain, to ensure that each delegate receives the same consistently high standard of training and knowledge. The prize draw is made by Darren Barsby of The IEE and lunch is provided.

Riello Galatrek's General Manager Robin Koffler sees the Energy Forums as an invaluable opportunity to learn more about a host of power related topics; "These free events aim to cover a wide range of issues that are of major concern to industry and commerce. I urge potential delegates to confirm their attendance as soon as possible to guarantee availability."

People who cannot attend the events Riello Galatrek operates a specialist Technical Energy Consultant (TEC) division. Staffed by qualified engineers the TEC hotline deals with a host of planning, installation and maintenance issues. Field site surveys and presentations to company engineering and maintenance teams can be organised at fairly short notice across the UK.

To reserve places at any of the events, please contact Riello Galatrek TEC on 0800 781 7959 or e-mail [tec@riello-ups.co.uk](mailto:tec@riello-ups.co.uk). Alternatively, delegates can download an invitation and booking form from <http://www.riello-ups.co.uk/riello/htm/tec.htm>

Ends - 593 words.

Riello Galatrek Ltd. is the UK subsidiary of Riello UPS Manufacturing srl, manufacturers of over 100,000 UPS units a year and a dominant force in the European UPS market, with a presence in all key sectors. Riello UPS purchased the uninterruptible power systems sales and services business of Advance Galatrek in March 2003 to form Riello Galatrek Ltd. and combine the strengths of the two organisations.

Riello Galatrek operates a UK based technical team for support, custom UPS design and UPS accessory development. Primary UPS development is carried by Riello UPS out at three research centres in Italy. Development focuses on advancing UPS technology with improved performance, enhanced features and the ultimate in reliability. The Riello product range covers 400VA to 6MVA with a host of remote monitoring software options include the TeleGuard 24/7 service package.

Riello Galatrek's UK headquarters is located in new premises at Wrexham, just off the M53 and within 40 minutes of Manchester airport. Here customers benefit from training for their own service engineers and other support such as; site surveys, installation, commissioning, on-site training and 24/7 remote monitoring.
