---

Displacements, the amazing new melodic punk band from Hull launch their first 5 track Cd tonight 29/7/04 at Springers Club in Hull. Playing their own unique brand of rock / punk the Displacements are only 18 years old. They have been together for two years and write all of their own songs based on teenage angst, love lost and the neighbours who don't like them practicing. Their live sets are always powerful and fun and their antics always have the crowd rocking.
