Avanquest Kommunicate adds Datawatch|ES to portfolio
of Business Process Management Solutions

Avanquest UK Corporate (Kommunicate), provider of Business Process Management solutions, announces the addition of Datawatch|ES, Enterprise Data Mining & Report Management software to its portfolio of products. Datawatch|ES complements the existing range of solutions offered by Avanquest Kommunicate, which focus in the areas of Enterprise Content Management, Document Delivery, Workflow and Business Process Automation, Network Fax, Unified Communications, Encryption and Data Security, Corporate SMS Text Messaging, Multi-function Device Integration and Compliance.

Datawatch|ES offers online report archival, distribution and programming-free analytics with complete security. Users can view reports through their browser by pointing and clicking; read and add online "sticky notes" to reports; save report sections as PDF; view report data as an online XML form; analyse data online, and download the data to PDF, Excel, or a multi-dimensional data cube module for further analysis.

Chris Thompson , CEO of Avanquest Kommunicate comments "We have been supplying, implementing and successfully supporting Corporate Solutions for almost twenty years. Our focus has always been to provide the best solutions to our customers that accelerate and formalise internal business processes and delivering a compliance conscious environment that enhances the interaction between colleagues, customers and suppliers. The addition of Datawatch|ES take us into an exciting new area which our large customer base has been eager for us to address.'
