Wednesday, 10 November 2004

Yardi Systems, Inc. the industry leader for asset and property management software today announced the appointment of two new additions to its European team; James Barrie will take on the role of implementation specialist and Paul Jansen as a programmer.

Barrie, who will be based in the recently opened Henley-On-Thames office, brings over 10 years of proven analytical and business skills in the IT industry to Yardi. His wide expanse of knowledge emulates from his experience within the insurance, healthcare and property consultancy industries. His career portfolio includes GVA Grimley, BUPA and Aegon Insurance (UK) Ltd.

Jansen brings 20 years of experience in the IT and software industry as well as a Doctorate in Business Administration to the Amsterdam office, which he has gained in 60 countries ranging from project and interim management to programming databases. His areas of specialism include crystal reports, SQL and technical implementations, and he has worked for a number of companies including Grondinvest, Tember and IGN.

Since its formation 20 years ago, Yardi Systems has developed a comprehensive product suite which caters for commercial and residential property management and pension fund management, to name a few. Its customer base, in excess of 18,000 proudly boasts some of the world's leading international companies including Deloitte, Cushman Wakefield Healey and Baker™ and SachsenFonds GmbH.

Philip Stott, European Sales Manager for Yardi commented, "It was always our aim to bring on board more personnel as part of our European expansion plan, especially with the increase in the number of companies signing up to the solution. James and Paul will be valuable assets to the organisation and their experience will further enhance our European offerings."

About Yardi Systems:

Yardi has a comprehensive product suite which caters for various market sectors including commercial and residential property management, pension fund management, property development companies, and local and central government. Yardi's Voyager International™ solution is an intuitive, browser-based and integrated, property management and accounting system which enables clients to manage all their property management, billing, general ledger and budget and forecasting requirements in real-time and across multiple locations. Yardi enjoys a customer base that incorporates some of the world's leading international companies. Its European customers include: Deloitte, Sachsenfonds, Cushman & Wakefield Healey & Baker, ProLogis and Mount Street Holdings.
