Dr Jose Nazario, a leading worm researcher and senior software engineer at Arbor Networks and author of *Defense and Detection Strategies Against Internet Worms*, is available for comment to UK journalists this week on issues around DDoS attacks and network security. DDoS attacks now number as the second most costly computer crime, costing businesses \$65.6 million in 2003 in total annual losses, according to the CSI/FBI 2004 Computer Crime & Security Survey

Dr Jose Nazario has been invited to the UK to speak today at the 6th IT Secure Forum, at the Barbican, London

If you would like to speak to Jose, then please call
