SAY IT WITH CANDLES AND FLOWERS

We all like a romantic candlelit dinner to enjoy with our loved one but the memory often fades, so we guarantee an occasion that will last a lifetime.

When you enjoy a special 4-course candlelit valentine's dinner as well as some of the finest food in the Lake District we will include a single rose for each lady. But this is no ordinary rose. It is a real rose preserved and covered in 24k gold. These gold roses are even more stunning in real life than can be captured here. Each one is unique and each is handmade through a 40-step process. Regular roses fade in days but these gold roses will last and be treasured by her forever. Each rose is preserved under the metal so it will last for years, and is also made strong by the process so it is not too fragile to touch or hold
