

Mimosa Systems to Boost UK Channel Presence with Appointment of Channel Partner Manager

Submitted by: Touchdown PR

Wednesday, 2 July 2008

Reading, UK – 30 June, 2008 – Mimosa Systems™ today announced plans to significantly boost its number of UK channel partners, from three to 15, following the appointment of Jo Hemming as UK channel partner manager

In addition to supporting the company's aggressive plans for UK channel partner recruitment, Hemming will be responsible for establishing a best-in-class channel infrastructure that delivers the tools, platforms and support needed to drive revenues of Mimosa's NearPoint solution.

Prior to joining Mimosa, Hemming held senior channel partner management and liaison roles at ZANTAZ, Computer Associates and Oracle. Based in Reading, Hemming reports to Brian Bennett, Mimosa System's UK managing director.

Commenting on this appointment Bennett said: "This appointment comes at a strategically important time for Mimosa – as Gartner has just recognised our offering as the fastest growing archiving solution for Exchange[1]. Jo has an established and impressive track record of developing, managing and recruiting UK channel partners. This makes her the ideal candidate to develop a highly effective channel infrastructure that supports our aggressive channel recruitment drive.

Resellers interested in partnering with Mimosa should contact Jo Hemming at +44 (0)1189 637860 for more information.

About Mimosa

Mimosa Systems, Inc. delivers next-generation information management solutions for information immediacy, discovery, and continuity. Mimosa NearPoint for Microsoft Exchange Server is the industry's most comprehensive information management software solution for Microsoft Exchange, unifying email archiving, recovery, and storage management. With options for eDiscovery, file system archiving, employee supervision and disaster recovery, NearPoint ensures litigation readiness and email continuity while leveraging cost-effective disk technologies to optimize email and file system storage growth.
