Agile Solutions Ltd to become the first UK member of the MDM Alliance Group (MAG)

London, July 17th, 2008 —Agile Solutions, one of the fastest growing data integration and business intelligence consultancies in the UK, today announced it's membership and support of the Master Data Management Alliance Group (MAG), the community promoting sustainable modeling procedures for delivering master data management projects.

Agile Solutions will actively promote the modeling procedures encompassed by the MDM Guide from the MAG by providing MDM value add services of consultancy, education and training. The use of MAG procedures will also expand and complement their service offering data governance, data quality, data warehousing and data integration.

"The business communities we have served have increasingly looked to take control of their data assets and have IT support them with appropriate tools for data governance and life cycle management. With, the adoption of the MAG as a common basis for its members to add value, we believe those business communities will benefit from the intellectual capital from the experience of hundreds of successful and sustainable MDM projects." said Owen Lewis – Director of Agile Solutions Limited.

"The MAG community is very excited by the addition of our first UK member in support of our collaborative best practice approach on an international basis." said Pierre Bonnet a founding member of the MAG and a veteran of delivering sustainable IT architecture. Bonnet adds "Agile will bring an invaluable perspective to our existing community of software vendors, consulting and system integrators delivering real sustainable business value in MDM projects."

Under terms of the membership Agile Solutions will be actively involved with the MAG in the enhancement of modeling procedures and the creation of common information models to meet the exacting needs of its clients.

About Agile Solutions
