---

Eclipse Internet (<http://www.eclipse.net.uk>), winner of ISPA's "Best Business ISP" award for 2008, is offering 50 per cent off their range of hosting packages, with prices starting from just £1.99 per month!

Packages on offer include web hosting, an e-commerce solution and managed server hosting. And, with the offer only available until 6 January 2009, demand is expected to be high.

Mark Thomas, Head of Sales and Marketing says "We have a fantastic range of hosted services, designed for a variety of uses and for every size of business. We want to encourage businesses who have been considering building an online presence to experience the benefits first hand, at a specially reduced price."

Eclipse's web hosting starts at just £1.99 per month for the first three months and includes a free domain name for those wanting to create a web presence for the first time. An unlimited number of business email addresses is also included in the package.

Businesses looking to develop their own e-commerce site are also set to benefit from the offer, with eStore, Eclipse's online shop software available for just £8.75 per month for the first three months. There is a number of options available including hundreds of site design templates and the ability to accept a range of payment methods.

Also included in the special offer is Managed Server hosting from £39.50 per month for the first three months. This service provides a secure hosting environment for business critical websites and online applications. It comes with a 100 per cent uptime service level agreement with no set up costs and a choice of back-up options.

Eclipse is also offering a range of consumer hosting services in their half price offer.

Customers can find out more and sign up for the services through the Eclipse website at [www.eclipse.net.uk](http://www.eclipse.net.uk)
