This morning 50 children at local Shepherd's Bush charity, The Upper Room Project, were surprised by some very special guests including GMTV weather girl Clare Nasir, and Pudsey, when Build-A-Bear Workshop donated 50 Pudsey Bears to the charity.

Build-A-Bear Workshop has teamed up with Children In Need to launch a limited edition Pudsey Bear (£5 from each sale goes back to Children In Need) and to celebrate the partnership and opening of the 50th Build-A-Bear Workshop store at Westfield London they invited guests to make 50 Pudsey Bears to be donated to the local Children In Need charity. Based in Shepherd's Bush The Upper Room Project runs a club for the most deprived estates of West London, providing a safe haven for 4-11 year old children living on or below the poverty line.

If you would like any further photography or information, please call Estelle Boon, Claire Hoather or Julie Doyle on 0207 632 2400.
