New Extra Aloe Dermo-Gel Multi-Active from Equilibra, Italy's number one skin care brand, is the type of hard working, multi-tasking product that we all dream of finding.

The main ingredient of Dermo-Gel Multi Active is 98% Aloe Vera, well known for its soothing and healing properties. To maintain purity and retain the optimum ingredients beneficial to the skin Equilibra only use the Aloe leaves which are cold pressed by hand.

Equilibra Aloe Dermo-Gel Multi Active can be used daily to help keep nourish and rejuvenate your skin. These are all the other reasons why you would want to keep an extra tube in the house:

Scrapes & grazes

Sun burn

Dry lips

Burns when you forget to grab a potholder!

Blisters from killer heels

Prickly heat to cool and sooth

Men's shaving rash

Post leg, underarm & bikini waxing to soothe the skin

Sore gums and relief from rubbing dentures or gum shields used for sports

Mouth ulcers for a quick healing solution

Rash from chafing such as waistbands, bra straps

Available in a 150 ml tube costing a credit crunching £6.49, EQUILIBRA Dermo Gel Multi Active is available nationally through pharmacies (phone: 0115 8419795 for stockists) and on line from www.chemistdirect.com
