---

A great gift for the eco-conscious person in your household! Did you know that nearly £1 billion worth of energy is wasted each year by leaving appliances on standby? But now One For All can help you help save the planet with the 'Energy Saver' universal remote control - it switches off all your a/v equipment at the press of a button. Simply insert the Power Plug into the wall socket, then use a power strip to connect up to four devices including your TV, DVD and satellite/cable digibox. When it's time for bed, just press the green button on the remote to make an energy saving of 90%. Priced £34.99, it costs less than the electricity you could save! Available from Currys and John Lewis or online at [www.maplin.co.uk](http://www.maplin.co.uk)

If you know someone who spends hours with their model planes, trains and automobiles - or other creative arts and crafts - then the Dremel 300 multi-tool is a perfect Christmas gift. Its multiple uses will be limited only by their imagination and include drilling, cutting, sanding, routing and polishing all kinds of materials. Dremel is offering a special value deal with its Christmas Zipper Bag promotion. It includes the top-selling Dremel 300 Series power tool, an accessory bag with 25 pieces, two multipurpose cutting bits plus a line and circle cutter attachment. Worth over £55, it's available at Homebase for just £39.99

With the credit crunch biting, it's time for DIY not GSI ('Get Someone In'). Tackle all those tasks around the house with the new Bosch UNEO - a cordless screwdriver, drill and rotary hammer all in one tool. Weighing only 1.1 kilos and no bigger than an A5 sheet of paper, the UNEO makes light work of masonry, metal, wood or plastic - and drills through concrete with ease thanks to its pneumatic hammer mechanism. There's no trailing cable to trip over as it runs on a lithium-ion battery that's as quick to charge as a mobile phone - and it's really easy to change the drill or screwdriver bits too. The UNEO is exclusive to B&Q this Christmas priced £119.99

Of course, if you do fancy splashing out, how about a family gift of a new whirlpool bath? The Morphosis Alpha and Gamma from Jacuzzi are designed by Pininfarina, the team behind Ferrari and Maserati. They incorporate hydrotherapy and chromotherapy (the use of colour and light to balance energy in the body) to provide bathing design with well-being benefits. With house prices tumbling, don't move - improve!  
From £6,995
