

Create a Luxury Bathing Sanctuary

Submitted by: Starfish Communications

Monday, 24 November 2008

With house sales at an all time low and the economic forecast gloomy, turn your house into a luxury home by creating a bathing sanctuary with simple ideas and choice pieces that won't break the bank from the BC Sanitan collection.

Pay Homage to a Bygone Era

Chandeliers create a focal point in almost any room of the house but in the bathroom they add a touch of glamour and opulence. Paint frames around your bathroom furniture and add touches of solid wood - like an Eternity bath panel and matching toilet seat - for a look that is resplendently evocative of enchanting bygone times.

Belgravia combines elegance with exceptional versatility. The fluted column has always been one of the essential defining features of period styling. The look is full of character and wonderfully evocative, used to subtle effect on Belgravia's pedestal, closet and bidet. The cistern's breakfront shape is another charming traditional detail allowing you to indulge your period bathroom styling ideas as far as you like.

Bathe by Candlelight

Strike a match and light a candle to create a calm, intimate and romantic mood. Couple with the inviting and shapely Mark Anthony bath, your desired aroma and favourite soundtrack for the perfect glowing retreat.

For sheer presence, the iconic cast iron double-ended bath can make a dramatic focal point for your bathroom. It's impressive enough even when not in use, but add some atmosphere, pour yourself a glass of your favourite wine and really soak away the evening in pure indulgence. The interior of the bath is finished in heavy white enamel, while the exterior surface is supplied unfinished ready for priming and painting to match your chosen scheme

Create a Masterpiece

Just add sheer curtains, standalone and wall mirrors as features and sumptuous towels for the perfect spa-like retreat. Consider warm neutral tones to make your bathroom more inviting and twin with stately pieces like the Highgrove bath for a classic creation.

A showstopper in every sense, the Highgrove is guaranteed to get your bathroom noticed. The deep freestanding double-ended acrylic bath is designed specifically for use with the Highgrove suite, but the style is neutral enough for you to consider teaming with your suite.

BC Sanitan is famous for its classic designs with pure distinction. Beautiful at home not only in traditional surroundings but also with the cool finishes and fresh colours of more modern day settings, the collection includes baths, bathroom suites, brassware, furniture and accessories and is sold

exclusively through specialist bathroom retailers throughout the UK. Log onto <http://www.bcsanitan.co.uk/> or call 01782 717275 for catalogues and product information.
