

PolySpot to Reveal How Applying Enterprise 2.0 Drives Business Results at IMS 2008

Submitted by: Dimoso Ltd

Wednesday, 26 November 2008

02 Apr - 04 Dec 2008, Olympia Grand Hall, London, Booth 653

London - 26 November, 2008 - PolySpot, a global leader in Enterprise Search software, is speaking as part of IMS (Information Management Solutions) 2008 free seminar programme. The three-day event is designed to help delegates understand the need for improved collaboration, productivity and creativity to ensure business success in the digital age.

Simon Alder, PolySpot's UK Technical Manager, will address: "Beyond search: Social network and collaboration in the enterprise environment." The free seminar aims to educate delegates that Enterprise search needs to be an integral part of business productivity. By applying Enterprise 2.0, organisations now have access to an enterprise-class solution that enables users to find the information and expertise they need to drive business results.

PolySpot's leading enterprise search solutions will be demonstrated at its booth. Delegates will be shown how with the correct search solution, enterprise customers are enabled to effectively leverage content that drives business growth by improving the customer experience, increase collaboration and streamline business processes in dynamic environments.

"We are excited to be leading the discussion at this years IMS event on the need for employees to expand the basics of search into Enterprise 2.0. Searching within the Enterprise isn't just about finding information, that's just the starting point," said Simon. "Enterprise search has to be an integral part of business productivity. PolySpot's infrastructure is now becoming a 'must have' for the latest generation of business solutions."

Note to editors:

Simon Adler, UK Technical Manager, Olivier Lefassy, CEO and Marc Quantrill, UK country manager of PolySpot will be available for interviews throughout the conference at Booth number 653.

Please contact Zara Gibb on 020 7033 2660 to arrange an interview.

For more information visit: "Moving from Web 2.0 to enterprise 2.0 / Collaborating in the enterprise" on 4th December: 12.15 - 12.45.
