Let's act together to protect nature

If we want to protect the planet, more of us need to get involved! This is why DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>) is organising another Green Projects (<http://www.discoveryboxbooks.com/competition2.php>) competition this year. DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>) launched its first Green Projects (<http://www.discoveryboxbooks.com/competition2.php>) competition in 2004, so this is the 6th edition!

What are Green Projects?

They are projects that protect nature and the environment. Green Projects (<http://www.discoveryboxbooks.com/competition2.php>) are a way for a class, a club or group of children to do something positive to protect nature. Last year some children cleaned up a wood, while others put up nesting boxes. Other groups planted trees around their school. This is run in conjunction with local schools and so the support of staff, teachers and pupils is needed to make it a success.

Green Projects 2009: build an island of green!

This year DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>) is asking everyone to build a little nature corner, where insects and birds and other kinds of wildlife can live. It could be in a garden, the school playground...You can even set one up in a window box!

The top 10 projects chosen will receive a cheque for £100 to help them set up their nature corner.

Who can take part?

Children from all around the world, as a class, nature club or group of friends, as long as an adult is involved.

When is the competition?

It will run during the school year 2008-2009. A complete report describing the project should be sent by 1st March 2009. Then children have the rest of the school year, until July 2009, to carry out their project.

How to take part?

Please go to <http://www.discoveryboxbooks.com/competition2.php> or check out the December issue of DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>) for full details.

An international challenge

No matter where the children live, they can take part in the Green Projects (<http://www.discoveryboxbooks.com/competition2.php>) competition. Readers of Reportero Doc (<http://http://www.conmishijos.com/rincones2/rinconREPORTERO/>), Reporter Doc (<http://www.conmishijos.com/rincones2/rinconREPORTER/>) and Images Doc (<http://www.imagesdoc.com/>) (the Spanish, Catalan and French versions of DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>)) will also take part. The more people that get involved the better it will be for the environment!

DiscoveryBox (<http://www.bayard-magazines.co.uk/gammebox/discoverybox.htm>) is a proud founder of the Green Projects (<http://www.discoveryboxbooks.com/competition2.php>). We encourage our readers to be more aware of the environment and its issues with a different subject every month in our magazine. With each issue of DiscoveryBox children set off on a voyage of discovery, learning wonderful facts about science, animals, history and the world.

For more information: www.bayard-magazines.co.uk

And find out how your school can benefit from free subscriptions (<http://www.bayard-magazines.co.uk/gammebox/schoolpage.htm>) to put magazines in the library and in classrooms. Through this, children can benefit at home and at school and we can help to meet our aim of making reading and learning a strict pleasure for children.

We look forward to finding out about your Green Projects (<http://www.discoveryboxbooks.com/competition2.php>)!
