

Singtones Serves Up Free Christmas Karaoke

Submitted by: Brandnation Integrated Ltd

Friday, 19 December 2008

Christmas means Karaoke time! But, before you trash the eardrums of your nearest and dearest with your terrifying tenor – have a heart and spare the top singalong tunes from your annual desecration with a bit of help from the audio magicians at Singtones!

On the Singtones website www.singtone.com you can practice Karaoke to your heart's content – with all the good bits from top tunes of the moment as well as classics from yesteryear. What's more- the special Singtone Studio software (developed by audio experts for top professionals in the music business) magically adjusts a recording of your best efforts to sound as much like the original recording as it possibly can. The difference is amazing – everyone can really get to sound like an X-Factor finalist!

Even better, when you've finished practicing and think you're ready to really wow! your Christmas Karaoke audience – you can send two completely free mobile phone versions of your Singtones direct to a UK mobile phone and then it's free to share with friends and family!

It's easy! All you need to make use of Singtones new technology is a computer (PC or Mac), an internet connection and a microphone. Hook it all up and start singing from the hundreds of online karaoke hits, including everything from Ben E. King's "Stand By Me" to Duffy's "Warwick Avenue" and everything in between. There's something for everyone, from granddad's crooner favourites to your little niece's favourite pop party favourites!

Thanks to Singtone Studio's professional audio fixing technology, you can listen to recordings of yourself or your friends and family, all digitally corrected so you're in tune and in time. You can even compare yourself to the original raw recording, honing your karaoke skills for the enjoyment (or laughter!) of your whole family. Plus Singtones provides a Singstar/Guitar Hero-style "Singing Performance" rating, which adds an extra element of competition for those after Christmas lunch bouts!

You can save your Singtones as MP3s for free in your account and those that you send to mobiles (after the first two that are currently free) can be sent for a small fee, to be used as personal ring tones, and then also used to customise your Facebook profile!

So make your karaoke Christmas one to remember for all the right reasons and all for free! Visit www.singtone.com to find out more!
