We were absolutely delighted when we were asked by ITV to supply our skincare products to the skaters and celebrities for the new series of Dancing on Ice.

We thought long and hard as to which products would be especially beneficial to them all, and decided upon the 100% natural Face Mask, already a Cult product with many A list Celebs, and our 100% natural Herbal Bath Liquid.

The Herbal Bath Liquid is enjoyed by 13 million people every year, and used by all the leading Spas throughout Europe, where it has remained a sovereign remedy for Rheumatism and Arthritis for well over 150 years. At this time of year the Spas are full with people taking their yearly Spa Baths to Detox the whole body. This product seemed perfect to supply them, to relieve the stresses and strains, after their gruelling schedules of training and performing on Ice! Muscles they never thought they had would be eased, aches, pains and sprains would be soothed and relieved with the Herbal Bath Liquids 331 ingredients from nature, some of these ingredients have been lost to mankind 500 years ago! And, after the pure indulgence from this gift from nature, they would experience the best nights sleep they have ever had. The Bath Liquid comes in a 750ml bottle. Simply add 4 capfuls to your bathwater and lie in this luxury treat for the whole body for 20 minutes. The bottle is enough for 5 baths, and although it turns your bathwater black, it does not stain the body, bath or towel.

The 100% natural Face Mask is already a Cult product and firm favourite with many A list celebs, after appearing on How To Look Good Naked with Gok Wan. It has also become THE mask of choice with every Beauty Editor and Journalist who has tried it. It is only left on the skin for 3 minutes to work it's magic, and on all skin types Male or female- just like a mini face lift. People with problem skin, like Acne, Eczema and Psoriasis would not use anything else, this really is a very special mask. As both the celebs and skaters need to look their very best in front of the cameras, this mask would also prove invaluable to them all. It comes in a 100ml Jar which is enough for 16 full face masks.

There is a growing trend for people to go back to natural products to care for their skin. The Balaton Spa range is probably one of the most natural ranges in the world and becoming increasingly popular, not only because they work, but because they are also affordable, which in this Economic climate is vitally important. Our slogan is Products from the Earth but will never cost it.
