

THE BEST HOSTING GETS EVEN BETTER

Submitted by: Namesco

Monday, 26 January 2009

Namesco's award winning hosting plans have just got even better with many features doubling in capacity, and for a limited time only they're half price.

In these times of economic uncertainty, Namesco are proud to support their customers by increasing their hosting capabilities by up to 50%. The increase in configurable storage space, monthly bandwidth allowance, POP3 Mailboxes and increased FTP accounts, gives customers even more for their money. Plus for a limited time only Namesco are offering all this for half price.

The expansion of Namesco's hosting plans echoes their plans for growth in 2009 at their Head Office in Worcester, with their award winning UK based customer service and an exciting year of new innovative product releases.

-ENDS-

Namesco (<http://www.names.co.uk>) is the 4th largest domain name and hosting provider within the UK domain sector and ranked within the top 50 largest hosting providers in the World.

As a subsidiary company of Dada - listed on the Italian stock market MTA segment STAR (DA.MI) – Namesco is part of the Business Unit DadaPro, which offers companies professional services for online presence and advertising.

DadaPro manages over 1,000,000 registered domains in over 260 extensions, 22,000 new registrations per month, 500,000 premium e-mail accounts and 300,000 websites hosted on the Hosting platforms.
