In the Beauty Industry, unheard of. We have all been conditioned to use this mask for oily skin, that mask for dry skin, an exfoliating mask, a mask for combination skin, another mask for rejuvenating skin etc etc etc So when one mask claims to do all of this, we dont believe it do we, it just cant possibly be true.

Fortunatley now it is! The Balaton Spa 100% natural face mask does all of this and much much more, and every Beauty Editor, Journalist, Gok Wan on How to Look Good Naked, Trinny and Susannah, and the celebs and skaters on Dancing on Ice are all loving this Mask. So how is it possible?

With 331 Hebs, Plants, Grasses and Flowers, as well as Organic Substances, Vitamins, Trace Elements and Minerals, formed by nature 20,000 years ago, the Balaton Spa face mask contains everything you will ever need in the ultimate face mask. Many of these unique ingredients are only to be found by the nearby tranquil shores of Lake Balaton in Hungary, and have all remained active because they have never dried out, even though many of these ingredients have been lost to mankind 500 years ago!

So how will you know if it will work for you? We have a limited number to give away, it will be on a first come first served basis, so contact us by email at balatonspa@btinternet.com

You will receive a 100ml jar of face mask which is enough for 16 full facials, but the difference in your skin will be noticed after the very first application. You will also receive the Balaton Spa brochure, which lists the 331 ingredients all on the back page. You may also be surprised to know that you only leave this mask on for 3 minutes to work it's magic- it will be just like a mini face lift! Fabulous for Acned Skin, Psoriasis and Eczema too!

For detailed information on the History and News on the Balaton Spa range, go to www.balaton-spa.co.uk, probably only once in a lifetime comes something that works as well as this.
