

NEW COMFY CANE COLLECTION IS THE COMPLETE PACKAGE

Submitted by: Jasper PR

Wednesday, 25 February 2009

Gloster, the world's largest producer of quality outdoor furniture, has launched a range of classic cane style furniture for gardens and conservatories where accessory items are included in the price. Called Sorrento, the all-inclusive collection of elegantly styled dining and lounge furniture includes cushions and glass table tops as standard.

Completely weatherproof and easy to clean, Sorrento is curvaceous and supremely comfortable. It is hand-woven from a man-made, Hazel toned weave wrapped around lightweight aluminium frames topped with Pebble-coloured, shower proof cushions. Back cushions feature button-back detailing.

The Sorrento collection includes two types of Dining Chair (with and without arms), two glass topped Dining Tables (round and boat-shaped), a Lounge Armchair, Ottoman and two sizes of Sofa (two and three seater). A generously proportioned, deep-cushioned Lounger comes complete with arms and reclines to six different back positions. There's also a Coffee Table and smaller Side Table.

The introduction of Sorrento to Gloster's extensive allweather woven range reflects the continuing popularity of this versatile material in outdoor furniture design.

With a complete dining set of four chairs (including cushions) and a round table priced at just £1,665, it also brings this exclusive brand within reach of a wider audience. The introduction of Sorrento to Gloster's extensive allweather woven range reflects the continuing popularity of this versatile material in outdoor furniture design.

Gloster Furniture is available from selected retailers and garden centres across the UK, including Harrods and The Chelsea Gardener in London. For more information please call 01454 631 950 or visit www.gloster.com

Notes to editors...

Based in the UK, Gloster is one of the largest producers of quality outdoor furniture in the world with over 350 product lines and a world-wide distribution network. The company designs and manufactures an exciting range of both traditional and contemporary outdoor furniture in a variety of materials including teak, teak plywood, man-made wicker, stainless steel, aluminium and vinyl sling. All products are designed and built to stay outdoors all year long, retaining their beauty and functionality for years to come.
