

SORCE Intranet Wins Intranet Product of the Year and Best Document Management/Collaboration Product from the Intranet Journal Publication

Submitted by: SORCE Intranet

Wednesday, 4 March 2009

SORCE Limited, the UK's largest supplier of Intranets, Extranets and Portals, has been voted both Intranet Product of the Year and Best Document Management / Collaboration Tool by the Intranet Journal publication. This achievement is the second year SORCE has been voted Intranet Product of the Year ahead of products such as Microsoft SharePoint (in 2008) and a number of Content Management solutions. Readers voted for the SORCE Intranet (<http://www.sorce.biz>), not only for its wide range of readymade intranet applications (http://www.sorce.biz/intranet_applications.asp) but also for its scalability and flexibility allowing organisations to drive efficiency via communication and business process in this challenging economic environment.

Tom Dunlap, Managing Editor of Intranet Journal said: "SORCE Intranet had a phenomenal year, winning two categories -- Document Management and Intranet Design -- with large margins of victory. SORCE obviously has many happy users.. We congratulate SORCE and all of this year's winners."

Intranet Journal has a tradition of recognizing and honouring the best IT products through its Product of the Year Awards. For the winners, these annual awards are a mark of distinction and symbol of achievement in a crowded, highly competitive market.

John Nicklin, Commercial Director SORCE Limited said: "It is a privilege for us to receive this award for a second year and to be recognised alongside global organisations like ECM Documentum, Google and Microsoft. The combination of a powerful product, world class customer implementations and a great team has ensured our success with the people that matter the most, our customers. Our thanks go to everyone who has voted for us to receive this award."

SORCE delivers a flexible intranet, extranet and portal platform empowering organisations to provide effective communication and improved business processes; a solution that can evolve to meet the continuously changing needs of organisations. Suitable for Small Organisations and Global Corporations the SORCE Solution Caters for Legislative Requirements such as DDA (Disability Discrimination Act) 'AA' and Multilingual Compliancy.
