

From 'F' in Maths to Millionaire, Financial Expert publishes new book

Submitted by: Media Jems

Friday, 6 March 2009

Despite leaving school aged 16 with just one CSE, entrepreneur and self-made millionaire Stephen Sutherland is proud to announce the publication of his new book, Liquid Millionaire (21.97 /AuthorHouse - 248 pages - Hardcover).

"In Liquid Millionaire, you discover how - using a brand NEW way of investing - you could make millions from an up and coming stock market boom," Sutherland explains. After reading Liquid Millionaire, local businessman John Walton excitedly said, "This book is absolutely impossible to put down...mind-blowing."

Stephen Sutherland first hit the headlines back in 2003 when he turned \$31,409 into \$1.28 million and used the profits to buy his dad his dream car; a Bentley Continental.

Sutherland, now a professional stock market investor, promises to share with the reader:

- How he went from leaving school at 16 with just one CSE to "liquid" millionaire status
- How he turned \$31,409 into \$1.28 million in 38 months
- How to profit from the up and coming stock market boom
- How to create a guaranteed "Tax-Free" income for life

Liquid Millionaire is available to buy from www.ISACO.co.uk with a life time guarantee and from www.Amazon.co.uk from the end of March.

About the author

Stephen Sutherland, 41, lives in Mossley Lancashire and is the UK's leading authority in ISA Trend Investing. Stephen's clients shadow invest him, making the same investment returns as he does.
