

# The Harley Medical Group launches three new treatments for mothers day

Submitted by: pr-sending-enterprises

Tuesday, 10 March 2009

---

The Harley Medical Group, the UK's largest cosmetic surgery provider, is offering three new beauty treatments at mini prices for mother's day, so that mums can look a million dollars.

The Harley Medical Group (<http://www.harleymedical.co.uk/our-clinics/>) has decided to help mums feel extra special this mother's day with a credit-crunch busting facial taster treatment session. The Group is launching three new mini-treatments across its 26 clinics so that mothers can feel a million dollars - for less than £30.

Included in the new treatments are Microdermabrasion (<http://www.harleymedical.co.uk/non-surgical-solutions/medical-microdermabrasion/>), a gentle treatment that uses fine crystals to exfoliate the skin, providing improved tone and texture and healthy, glowing skin. Alternatively, mums can be spoilt with a vitamin C based Peel to clear clogged pores and tighten skin, giving it a smoother, plumper and more even appearance. There is also the latest in Photopneumatic therapy available, PPX/Isolaz, a pain-free laser treatment that will improve the pigmentation of skin and reduce the appearance of fine veins.

Lisa Littlehales, Clinic Manager at The Harley Medical Group, commented: "A non-surgical treatment (<http://www.harleymedical.co.uk/non-surgical-solutions/>) procedure is a great, non-invasive treatment that will make mums look and feel fantastic this mother's day".

The group's Chairman, Mel Braham, advised that all patients ensure that their non-surgical treatment is carried out by a qualified professional. All patients at The Harley Medical Group, which has been established for over 25 years, undergo an initial consultation with a fully qualified Cosmetic Surgery Nurse Counsellor.

- Ends -

Notes to editors:

The Harley Medical Group is the UK's largest cosmetic surgery (<http://www.harleymedical.co.uk/>) provider, performing more procedures and with more clinics than any other cosmetic surgery provider. It has been established for over 25 years and is one of the most highly-regarded Cosmetic Surgery Groups operating in the UK. The Group has treated over 435,000 patients to date.

The Harley Medical Group works tirelessly to maintain the highest standards in the industry for the benefits all cosmetic surgery and non surgical patients. We are currently at the forefront of the campaign to ensure that the Government continues to regulate the use of certain laser types used in cosmetic surgery and non surgical treatments so that patients are protected from rogue practitioners.

In 2004, The Harley Medical Group's Chairman Mel Braham, at the request of the Department of Health became a member of the department's Steering Committee, set up to oversee the introduction of new regulations covering the entire Cosmetic Surgery sector. All of The Harley Medical Group's clinics are

registered with the Healthcare Commission.
