

MEN'S GUTLIFT LAUNCHED AT LONDON SALON - 10 SESSIONS IS THE EQUIVALENT OF 6 MONTHS IN THE GYM!

Submitted by: Gloss Communications

Thursday, 19 March 2009

Whether it's the prospect of getting your torso out on the beach, your impending nuptials or just a burgeoning phobia of mirrors that's spurring you on to get into shape, Karine Jackson Hair & Beauty has a fantastically easy way for men to tone up...

The Caci non-surgical Gutlift is a body toning procedure that offers the same results in just 10 sessions as a whole six months of abdominal crunches in the gym. Originally used in the medical field to improve muscle contour, blood and lymph circulation, the system uses the latest in non-surgical lifting techniques and tightens and tones sagging muscles by effectively re-educating them to stay tight and firm.

Benefits are visible from the very first treatment, and can be performed on the abs, glutes and any other area of concern, so if you want an additional 'Moob-lift' this can be done at the same time, at no extra cost!

THE NON-SURGICAL GUT, BUM OR MOOB-LIFT - £40 (30 MINS – 10 TREATMENTS FOR £310)

Notes to editors:

Karine Jackson Hair & Beauty is at 24 Litchfield Street, Covent Garden, London WC2H 9NJ. Appts: 020 7836 0300 <http://www.karinejackson.co.uk>
