

Soothe your Soul with a Jacuzzi Aquasoul Bath

Submitted by: Starfish Communications

Monday, 23 March 2009

Silence, Breathe, Renew and Dream - these are the thoughts that will fill your mind as you slide deeper inside the Aquasoul bath (<http://www.jacuzzi.co.uk/bathrooms/designer/56-whirlpool-baths/577-aquasoul>) from the new Jacuzzi® (<http://www.jacuzzi.co.uk>) Designer Range. Like having four baths in one, the Aquasoul concept offers a choice of deeply relaxing massages in addition to the traditional massage. With three bath options - Double, Single and Offset Corner - the Aquasoul will rejuvenate your body and soul.

Choose 'Silence' and you can relax with a delicate low noise hydromassage that evokes the spirit of a calm sea. 'Breathe' synchronises your breathing to the slow harmonious rhythm of the flow of water. 'Renew' is a vigorous energy boosting hydromassage and 'Dream' is just that - all the massaging sensations you dream of. And all at the touch of a button.

The enveloping design, with an interior depth of 45cm, optimises the effects of the different types of massage and the Technogel® headrest ensures your total well-being and personalised comfort in this oasis of relaxation.

Prices from £3,300.
