Classic style and the finest in quality craftsmanship are the trademarks of garden building specialist HSP Garden Buildings. Charming summerhouses, pavilions, arbours and gazebo's of every size and shape continue to delight all who own them.

Summer provides the perfect time for alfresco entertaining and a summerhouse is the ideal answer. Garden buildings small or large meet the need for extra space in your home and allow a complete new room to be multipurpose. A space for quiet contemplation, a study room, pool house, an artist studio, a personal gym, a place for the teenagers, or simply a place of retreat. The uses are only as limited as your imagination.

Meticulous attention to detail along with the opportunity to colour match your structure to any colour you choose, ensures your building is personalised to your exact style and taste.

Smaller structures are also catered for with beautiful arbours creating the ideal place to enjoy a shady corner and relax after a hard days gardening.

Everyone deserves an HSP building.
