Further to the press release sent out earlier this morning, a spokesperson for Top 10 Broadband (<http://www.top10-broadband.co.uk>) says:

“We have spoken to Tiscali and agree with them that our press release might have caused unnecessary concern for its customers. We understand from Tiscali that its lending banks are continuing to support the company and any suggestions that customers could be switched off are speculative and unhelpful. We have apologised for this and retracted the release as this was certainly not our intention.

“As one of the UK’s leading broadband providers, Tiscali is a valuable contributor to the information and choices we provide for consumers on our site and we will continue to support Tiscali on Top 10 Broadband.”

Spokesperson from Tiscali, Jody Haskayne said that “We can assure customers that there will be no impact on their broadband services and support of services will continue as usual. We are confident of the future of our business.”

Notes to Editors:

Top 10 Broadband is the UK’s most popular dedicated broadband comparison site with over one million unique users a month. The site offers comparison tools allowing users to make efficient broadband buying decisions. Top 10 Broadband is run by Formula a web design and marketing company based in central London.
